

SAFETY AT YOUR FINGERTIPS

DFP Safety VAULT™ is a cloud-based software app which eliminates the need for retaining paper records. The unique IAS system (Inspection Alert System) reminds the user of an upcoming competent person inspection which is required to minimize accidents that may occur due to equipment that has not been properly inspected.

FREE OF CHARGE

Introducing DFP Safety VAULT™, the industry's most innovative mobile application for fall protection equipment asset management. It provides "Safety at your Fingertips"!

Pre Use Inspection Instructions

DFP Safety VAULT™ maximizes user safety by providing each user with vital information on inspection and periodic needs.

Access to Key Information

The users have at their fingertips:

- Technical Data Sheets
- Instruction Manuals
- Product images, videos
- Declarations of Conformity
- Power Point Presentations
- And so much more!

Multi Device Access

All you need is an IOS or ANDROID phone or device. Simply open the camera on your phone or device and scan the QR code, Label or RFID tag that is included with every DFP Safety product.

Track Usage

DFP Safety VAULT™ user management system allows Safety Managers to track equipment used by individuals. This helps to ensure accountability concerning the upkeep of the equipment.

Get Reminders
